CertifyMe API's

CertifyMe.Online v 0.1

Export

The screenshot shows the CertifyMe API documentation in SwaggerHub. The left sidebar contains navigation links for Info, Tags, Servers, Search, default, POST /api/v1/credential, and Schemas. The main area displays the OpenAPI specification for the 'Award A Credential' endpoint. The specification includes the title, description, version, terms of service, contact information, and a detailed description of the POST request path. The code editor shows the JSON schema for the request body, which includes fields for template_ID, name, verify_mode, verify_code, email, and license_number. An example object is provided for the 'examples' field. The right side of the interface shows the 'Award A Credential' page with the title, description, terms of service, and contact information. It also features a 'Servers' dropdown set to 'https://my.certifyme....' and an 'Authorize' button. Below the main content, there are notes about SSL certificate validation and proxy routing.
